Abstract
The research studied Verb-Ing of English used in Time. English sentences in the magazine used various forms and functions of Verb-Ing. The forms and functions made non-English readers uneasy to understand it that they could misunderstand the English text. The research was focused on the problem of verb-ing with the aim of describing the forms, functions, and kind of sentences using Verb-ing. In order to get reach of the aim, the research was conducted based on English grammar theory by applying Sudaryanto’s linguistic method. The research resulted in that The English test used verb-ing as gerund, progressive, participle, adjective clause, and dangling. The verbs were found in several sentence like simple sentence, compound sentence, complex sentence, and compound-complex sentence.

Key word: verb-ing, forms, functions, sentence
